School Flavored Milk Campaign
DAIRYMAX

Take away my flavored milk?
We learned in math class that
9 is always greater than 0.

Get the facts about flavored milk's
9 essential nutrients.
Milk is the No. 1 food source
for 3 of the 4 nutrients
the 2010 Dietary Guidelines say children
need to consume more of — vitamin D,
calcium and potassium. Kids are falling far
short in important nutrients for growth and
development.

Source: 2009 Study "The Impact on Student Milk Consumption and Nutrient Intakes from Eliminating Flavored Milk in Schools." Presented at the School Nutrition Association Annual National Conference 2010.

don't take my milk.

Take away my flavored milk?
Who's not listening now?

Get the facts about flavored milk. Children choose flavored
milk 70% of the time as a beverage choice.

Flavored milk packs a powerful punch of 9
essential nutrients,
including Vitamin D, calcium and potassium — 3 of the 4
nutrients kids don't get enough of according to the 2010
Dietary Guidelines for Americans.
